REGIONAL PLANNING, COORDINATION, AND DATA

The Need for Regional Approaches

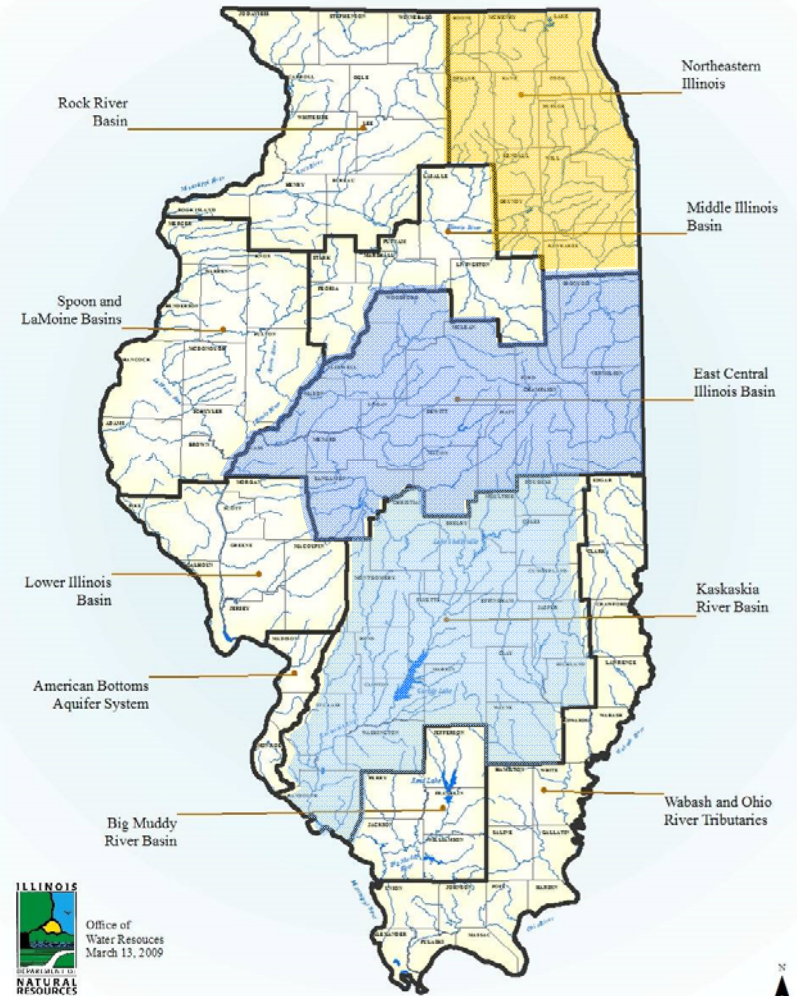

- Water and people not always in the same place
- Lots of individual actors

Suburban Population Growth and Water Supply

The Approach Taken... then not taken... then taken again... then not...

PRIORITY WATER SUPPLY PLANNING AREAS

Data

- Different data sent to IEPA, IDNR, ISWS, etc.
- Different data used by IEPA, IDNR, ISWS, etc.
- Little to no awareness of use by adjacent users
- Lack of real-time data

Thank you

Josh Ellis
